Wildfire

Report

DHS plan to respond to wildfire public health emergency. From the plan "...This plan will serve as an annex of the ADHS Emergency Response Plan (ERP), the agencies all-hazards approach to handling a public health emergency, to provide specific guidance related to a wildfire emergency. This plan describes roles, responsibilities, and concepts to be adopted along with the guidance set forth by the ERP whilst following the steps and procedures to establish an Incident Command System (ICS) across the department and activate the HEOC, as set forth in the HEOC SOP."
