

Sustainable and Resilient Remediation

Website

Refers to ASTM International Standard Guide for Greener Cleanups, which was used to pilot four case studies at sites in Illinois. The Illinois EPA recognizes the ASTM Standard Guide as a valuable resource for implementing greener cleanups.

<https://www2.illinois.gov/epa/topics/cleanup-programs/greener-cleanups/Pages/default.aspx>

A number of links on remediation processes for air, water, soil, energy, and infrastructure.

Wildfire

Website

Items under Wildfire Management of particular interest include the Prescribed Burn Manager Program and IDNR Wildland Fire Report. These are designed to track fires.

<https://www2.illinois.gov/dnr/conservation/Forestry/Pages/default.aspx>

Makes it unlawful within certain districts (counties) to set on fire or cause to be set on fire, any woods, brush, grass, grain, weeds or stubble without first having obtained a burning permit.
