

Sustainable and Resilient Remediation

Website

This document provides concepts and techniques of green remediation and guidance on how to apply them to DERs remedial programs, but does not specify methods or criteria to be used to quantify the effectiveness of the various green remediation concepts or remedial alternatives.

Website

New York State Department of health link that provides the following: "Each community is unique in terms of its strengths and vulnerabilities to climate-related health impacts. Communities across New York State are protecting health in the presence of climate change by participating in New York's Climate Smart Communities or Cleaner, Greener Communities Programs. You can view the links below to discover how these activities are making communities more sustainable and resilient to climate health impacts."
